# OrthoPediatrics Corp. Reports Second Quarter 2024 Financial Results and Reaffirms Full Year 2024 Revenue Guidance

#### Record Second Quarter 2024 Revenue Increased 33% Year-over-Year

WARSAW, Ind., August 5, 2024 -- OrthoPediatrics Corp. ("OrthoPediatrics" or the "Company") (Nasdaq: KIDS), a company focused exclusively on advancing the field of pediatric orthopedics, today announced its financial results for the second quarter ended June 30, 2024.

#### Second Quarter 2024 and Recent Business Highlights

- Helped a record 32,000 children in the second quarter of 2024, an increase of 52% from the second quarter 2023
- Generated record total revenue of \$52.8 million for the second quarter of 2024, up 33% from \$39.6 million in second quarter 2023; domestic revenue increased 39% and international revenue increased 16% in the quarter
- Grew worldwide Trauma & Deformity revenue 37%, worldwide Scoliosis revenue 26%; Sports Medicine/Other revenue increased 17% in the second quarter of 2024 compared to the second quarter of 2023
- Received Breakthrough Device Designation from FDA for eLLi<sup>™</sup> Growing Rod System, an implant designed to address severe pathology associated with Early Onset Scoliosis (EOS)
- Continued top tier sponsorship support of the combined 2024 Pediatric Orthopaedic Society of North America ("POSNA") and European Paediatric Orthopaedic Society ("EPOS") with Emerald sponsorship at annual meeting
- Announced financing providing up to \$100 million of capital, strengthening balance sheet through a term loan and private placement of convertible notes from Braidwell, LP
- Reaffirmed full year 2024 revenue guidance of \$200.0 million to \$203.0 million, representing growth of 34% to 36% compared to prior year

David Bailey, President & CEO of OrthoPediatrics, commented, "I am excited about our productive start to the year. We are executing across the business in a normalized Children's hospital environment to deliver healthy revenue growth and increased operating leverage. Our clinically differentiated product portfolio is driving continued market share gains. We are capitalized to achieve cash flow breakeven and uniquely positioned to continue investing in transformative product development and in our OPSB expansion strategy, while we generate operating cash flow that we expect will support next year's planned set builds."

#### Second Quarter 2024 Financial Results

Total revenue for the second quarter of 2024 was \$52.8 million, a 33% increase compared to \$39.6 million for the same period last year. U.S. revenue for the second quarter of 2024 was \$41.2 million, a 39% increase compared to \$29.6 million for the same period last year, representing 78% of total revenue. The increase in revenue in the second quarter of 2024 was driven primarily by organic growth in Trauma and Deformity and Scoliosis products as well as the addition of Boston O&P. International revenue for the second quarter of 2024 was \$11.6 million, a 16% increase

compared to \$10.0 million for the same period last year, representing 22% of total revenue. Growth in the quarter was primarily driven by Trauma and Deformity, domestic Scoliosis, partially offset by negative international Scoliosis.

Trauma and Deformity revenue for the second quarter of 2024 was \$37.8 million, a 37% increase compared to \$27.5 million for the same period last year. This growth was driven primarily by growth across numerous product lines, specifically Pega systems, PNP Tibia, ExFix, and OPSB, coupled with the addition of Boston O&P. Scoliosis revenue was \$13.7 million, a 26% increase compared to \$10.9 million for the second quarter of 2023. The growth was driven by increased number of users of our spine systems, and RESPONSE, as well as the addition of Boston O&P, partially offset by negative growth in international Scoliosis. Sports Medicine/Other revenue for the second quarter of 2024 was \$1.3 million, a 17% increase compared to \$1.2 million for the same period last year.

Gross profit for the second quarter of 2024 was \$40.8 million, a 36% increase compared to \$30.0 million for the same period last year. Gross profit margin for the second quarter of 2024 was 77%, compared to 76% for the same period last year. The change in gross margin was primarily driven by higher domestic growth combined with lower international set sales as well as favorable purchase price variance release.

Total operating expenses for the second quarter of 2024 were \$46.5 million, a 30% increase compared to \$35.6 million for the same period last year. The increase was mainly driven by the addition of Boston O&P, as well as increased commission expense and incremental personnel required to support the ongoing growth of the Company.

Sales and marketing expenses increased \$3.1 million, or 23%, to \$16.6 million in the second quarter of 2024. The increase was driven primarily by increased sales commission expenses coupled with additional employees to support the OPSB.

Research and development expenses decreased \$0.4 million, or 14%, to \$2.5 million in the second quarter of 2024. The decrease was driven by timing of external development expenses.

General and administrative expenses increased \$8.2 million, or 43%, to \$27.3 million in the second quarter of 2024. The increase was driven primarily by the addition of Boston O&P, increased depreciation and amortization as well as personnel and resources to support the continued expansion of the business.

Total other expense was \$0.4 million for the second quarter of 2024, compared to \$2.3 million of other income for the same period last year. The change was due primarily to the favorable fair value adjustment of contingent consideration in the second quarter of 2023, which did not repeat in 2024 as well as additional interest expense related to the term loan with MidCap.

Net loss for the second quarter of 2024 was \$6.0 million, compared to \$2.9 million for the same period last year. Net loss per share for the period was \$0.26 per basic and diluted share, compared to \$0.13 per basic and diluted share for the same period last year.

Adjusted EBITDA for the second quarter of 2024 was \$2.6 million as compared to \$2.3 million for the second quarter of 2023.

Weighted average basic and diluted shares outstanding for the three months ended June 30, 2024, was 23,145,064 shares.

As of June 30, 2024, cash, cash equivalents, short-term investments and restricted cash were \$30.9 million compared to \$82.3 million as of December 31, 2023. Cash usage in the second quarter 2024 includes \$5.5 million paid for one time events. Additionally, the Company has signed a private financing arrangement with Braidwell, LP, consisting of a term loan and private placement of convertible notes that will provide up to \$100 million of capital. Terms of the financing include a \$50 million term loan and \$50 million of convertible notes. The term loan consists of an initial term loan of \$25 million and access to a delayed draw term loan facility for an additional \$25 million. The

financing is expected to fund on or around August 12, 2024. In connection with the financing, the Company has approved a stock repurchase program of up to \$5 million in value of outstanding common stock. The proceeds from the financing will be used to repay outstanding debt of approximately \$10 million, transaction fees incurred in connection with the financing, potential stock repurchases, and general corporate purposes and working capital needs.

#### Full Year 2024 Financial Guidance

For the full year of 2024, the Company reiterated its revenue guidance of \$200.0 million to \$203.0 million, representing growth of 34% to 36% over 2023 revenue. The Company reiterated annual set deployment to be less than \$20.0 million and reiterated \$8.0 million to \$9.0 million of Adjusted EBITDA for the full year of 2024.

#### **Conference Call**

OrthoPediatrics will host a conference call on Tuesday, August 6, 2024, at 8:00 a.m. ET to discuss the results. Investors interested in listening to the conference call may do so by accessing a live and archived webcast of the event at www.orthopediatrics.com, on the Investors page in the Events & Presentations section. The webcast will be available for replay for at least 90 days after the event.

#### **Forward-Looking Statements**

This press release includes "forward-looking statements" within the meaning of U.S. federal securities laws. You can identify forward-looking statements by the use of words such as "may," "might," "will," "should," "expect," "plan," "anticipate," "could," "believe," "estimate," "project," "target," "predict," "intend," "future," "goals," "potential," "objective," "would" and other similar expressions. Forward-looking statements involve known and unknown risks, uncertainties and other factors, such as the impact of widespread health emergencies, such as COVID-19 and respiratory syncytial virus, and the other risks, uncertainties and factors set forth under "Risk Factors" in OrthoPediatrics' Annual Report on Form 10-K filed with the SEC on March 8, 2024, as updated and supplemented by our other SEC reports filed from time to time, that may cause our results, activity levels, performance or achievements to be materially different from the information expressed or implied by the forward-looking statements;. Forward-looking statements speak only as of the date they are made. OrthoPediatrics assumes no obligation to update forward-looking statements to reflect actual results, subsequent events, or circumstances or other changes affecting such statements except to the extent required by applicable securities laws.

#### **Use of Non-GAAP Financial Measures**

This press release includes certain non-GAAP financial measures such as organic revenue, adjusted loss per share and Adjusted EBITDA, which differ from financial measures calculated in accordance with U.S. generally accepted accounting principles ("GAAP"). Sales on an organic basis excludes from our reported net revenue growth the impacts of revenue from any acquired business that have been owned for less than one year. We believe that providing the non-GAAP organic revenue is useful as a way to measure and evaluate our underlying performance consistently across the periods presented. Adjusted loss per share in this press release represents diluted loss per share on a GAAP basis, plus the accreted interest attributable to acquisition installment payables, the fair value adjustment of contingent consideration, acquisition related costs, and minimum purchase commitment costs. The fair value adjustment of contingent consideration is associated with our estimates of the value of earn-outs in connection with certain acquisitions. We believe that providing the non-GAAP diluted loss per share excluding these expenses, as well as the GAAP measures, assists our investors because such expenses are not reflective of our ongoing operating results. Adjusted EBITDA in this release represents net loss, plus interest expense, net plus other expense, provision for income taxes (benefit), depreciation and amortization, stock-based compensation expense, fair value adjustment of contingent consideration, acquisition related costs, and the cost of minimum purchase commitments. The Company believes the non-GAAP measures provided in this earnings release enable it to further and more consistently analyze the period-to-period financial performance of its core business operating performance. Management uses these metrics as a measure of the Company's operating performance and for planning purposes, including financial projections. The Company believes these measures are useful to investors as supplemental information because they are frequently used by analysts, investors and other interested parties to evaluate companies in its industry. Adjusted EBITDA is a non-GAAP financial measure and should not be considered as an alternative to, or superior to, net income or loss as a measure of financial performance or cash flows from operations as a measure of liquidity, or any other performance measure derived in accordance with GAAP, and it should not be

construed to imply that the Company's future results will be unaffected by unusual or non-recurring items. In addition, the measure is not intended to be a measure of free cash flow for management's discretionary use, as it does not reflect certain cash requirements such as debt service requirements, capital expenditures and other cash costs that may recur in the future. Adjusted EBITDA contains certain other limitations, including the failure to reflect our cash expenditures, cash requirements for working capital needs and other potential cash requirements. In evaluating these non-GAAP measures, you should be aware that in the future the Company may incur expenses that are the same or similar to some of the adjustments in this presentation. The Company's presentation of non-GAAP diluted loss per share or Adjusted EBITDA should not be construed to imply that its future results will be unaffected by any such adjustments. Management compensates for these limitations by primarily relying on the Company's GAAP results in addition to using these adjusted measures on a supplemental basis. The Company's definition of these measures is not necessarily comparable to other similarly titled captions of other companies due to different methods of calculation. The schedules below contain reconciliations of reported GAAP net revenue to non-GAAP organic revenue, GAAP diluted loss per share to non-GAAP diluted loss and net loss to non-GAAP Adjusted EBITDA.

#### About OrthoPediatrics Corp.

Founded in 2006, OrthoPediatrics is an orthopedic company focused exclusively on advancing the field of pediatric orthopedics. As such it has developed the most comprehensive product offering to the pediatric orthopedic market to improve the lives of children with orthopedic conditions. OrthoPediatrics currently markets 71 systems that serve three of the largest categories within the pediatric orthopedic market. This product offering spans trauma and deformity, scoliosis, and sports medicine/other procedures. OrthoPediatrics' global sales organization is focused exclusively on pediatric orthopedics and distributes its products in the United States and over 70 countries outside the United States.
