Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act

Item 2.02. Results of Operations and Financial Condition.

On January 10, 2022, OrthoPediatics Corp. (the "Company") issued a press release announcing its preliminary unaudited revenue for the fourth quarter and full year ended December 31, 2021 and providing a related business update. The press release is furnished herewith as Exhibit 99.1 and is incorporated herein by reference.

The information in this Item 2.02, including the information incorporated by reference herein from Exhibit 99.1, is furnished pursuant to Item 2.02 of Form 8-K and shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

The financial information set forth in this Form 8-K reflects the Company's current preliminary revenue estimates, is subject to the completion of its audit process, and is subject to change. The Company's fourth quarter and full year ended December 31, 2021 results could differ materially from the preliminary estimates provided in this Form 8-K. You are cautioned not to place undue reliance on these forward-looking statements, which reflect management's analysis only as of the date of this Form 8-K. You should refer to the "Risk Factors" section of the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission (the "SEC") on March 11, 2021, as updated and supplemented by our other SEC reports filed from time to time, for a discussion of important factors that may cause our actual results to differ materially from those expressed or implied by these forward-looking statements. Given these risks, uncertainties and other factors, many of which are beyond our control, you are cautioned not to place undue reliance on these forward-looking statements. The Company undertakes no obligation to publicly release the results of any revision or update of the forward-looking statements, except as required by law.

Item 7.01. Regulation FD Disclosure.

The executive officers of OrthoPediatics Corp. have several upcoming presentations to representatives of investors and analysts. The officers intend to use the material filed as Exhibit 99.2 herewith, in whole or in part, as part of those presentations.

The information in this Item 7.01, including the information incorporated by reference herein from Exhibit 99.2, is furnished pursuant to Item 7.01 of Form 8-K and shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

Item 9.01. Financial Statements and Exhibits.

OrthoPediatrics Announces Preliminary Unaudited Revenue for the Fourth Quarter & Full-Year 2021

WARSAW, Indiana, January 10, 2022— OrthoPediatrics Corp. (“OrthoPediatrics” or the “Company”) (Nasdaq: KIDS), a company focused exclusively on advancing the field of pediatric orthopedics, today announced preliminary unaudited revenue for the fourth quarter and full year ended December 31, 2021.

Preliminary unaudited fourth quarter 2021 revenue is expected to be \$24.8 million, up 31%, when compared to \$18.9 million in the fourth quarter of 2020. Preliminary domestic revenue grew 11% while international revenue increased 363%. OrthoPediatrics’ preliminary unaudited full year 2021 revenue is expected to be \$98.0 million, representing annual growth of 38%. Preliminary full year domestic revenue grew 24% while international revenue increased 150%.

The Company plans to release its fourth quarter and full year 2021 financial results in early March 2022. The quarterly and annual preliminary revenue estimates for 2021 included in this press release are prior to the completion of review and audit procedures by the Company’s independent registered public accounting firm and are therefore subject to adjustment.

Forward-Looking Statements

This press release includes “forward-looking statements” within the meaning of U.S. federal securities laws, including the statements regarding OrthoPediatrics’ preliminary revenue for the fourth quarter ended December 31, 2021, and other statements identified by the use of words such as “may,” “might,” “will,” “should,” “expect,” “plan,” “anticipate,” “could,” “believe,” “estimate,” “project,” “target,” “predict,” “intend,” “future,” “goals,” “potential,” “objective,” “would” and other similar expressions. Forward-looking statements involve risks and uncertainties, many of which are beyond OrthoPediatrics’ control. Important factors could cause actual results to differ materially from those in the forward-looking statements, including, among others: the risks related to COVID-19, the continued impact such pandemic may have on the demand for our products, and our ability to respond to the related challenges; and the risks, uncertainties and factors set forth under “Risk Factors” in OrthoPediatrics’ Annual Report on Form 10-K filed with the Securities and Exchange Commission (the “SEC”) on March 11, 2021 as updated and supplemented by our other SEC reports filed from time to time. Forward-looking statements speak only as of the date they are made. OrthoPediatrics assumes no obligation to update forward-looking statements to reflect actual results, subsequent events, or circumstances or other changes affecting such statements except to the extent required by applicable securities laws.

About OrthoPediatrics Corp.

Founded in 2006, OrthoPediatrics is an orthopedic company focused exclusively on advancing the field of pediatric orthopedics. As such it has developed the most comprehensive product offering to the pediatric orthopedic market to improve the lives of children with orthopedic conditions. OrthoPediatrics currently markets 37 surgical systems that serve three of the largest categories within the pediatric orthopedic market. This product offering spans trauma and deformity, scoliosis, and sports medicine/other procedures. OrthoPediatrics’ global sales organization is focused exclusively on pediatric orthopedics and distributes its products in the United States and 45 countries outside the United States. Disclaimer

Forward-Looking Statements

This presentation includes "forward-looking statements" within the meaning of U.S. federal securities laws. You can identify forward-looking statements by the use of words such as "may," "might," "will," "should," "expect," "plan," "anticipate," "could," "believe," "estimate," "project," "target," "predict," "intend," "future," "goals," "potential," "objective," "would" and other similar expressions. Forward-looking statements involve risks and uncertainties, many of which are beyond OrthoPediatics' control. Important factors could cause actual results to differ materially from those in the forward-looking statements, including, among others: the risks related to COVID-19, the impact such pandemic may have on the demand for our products, and our ability to respond to the related challenges; and the risks, uncertainties and factors set forth under "Risk Factors" in OrthoPediatics' Annual Report on Form 10-K filed with the Securities and Exchange Commission (the "SEC") on March 11, 2021, as updated and supplemented by our other SEC reports filed time to time. Forward-looking statements speak only as of the date they are made. OrthoPediatics assumes no obligation to update forward-looking statements to reflect actual results, subsequent events, or circumstances or other changes affecting such statements except to the extent required by applicable securities laws.

Use of Non-GAAP Financial Measures

This presentation includes certain non-GAAP financial measures such as adjusted diluted earnings (loss) per share and Adjusted EBITDA, which differ from financial measures calculated in accordance with U.S. generally accepted accounting principles ("GAAP"). Adjusted earnings (loss) per share in this press release represents diluted earnings (loss) per share on a GAAP basis, plus the accreted interest attributable to acquisition installment payables, the fair value adjustment of contingent consideration, non-recurring professional fees and accrued legal settlement costs. The fair value adjustment of contingent consideration is associated with our estimates of the value of earn-outs in connection with certain acquisitions and the non-recurring professional fees are related to our response to a previously disclosed SEC review. We believe that providing the non-GAAP diluted earnings (loss) per share excluding these expenses, as well as the GAAP measures, assists our investors because such expenses are not reflective of our ongoing operating results. Adjusted EBITDA in this release represents net loss, plus interest expense, net plus other expense (income), provision for income taxes (benefit), depreciation and amortization, stock-based compensation expense, fair value adjustment of contingent consideration, acquisition related costs, nonrecurring professional fees and accrued legal settlements costs. The Company believes the non-GAAP measures provided in this earnings release enable it to further and more consistently analyze the period-to-period financial performance of its core business operating performance. Management uses these metrics as a measure of the Company's operating performance and for planning purposes, including financial projections. The Company believes these measures are useful to investors as supplemental information because they are frequently used by analysts, investors and other interested parties to evaluate companies in its industry. Adjusted EBITDA is a non-GAAP financial measure and should not be considered as an alternative to, or superior to, net income or loss as a measure of financial performance or cash flows from operations as a measure of liquidity, or any other performance measure derived in accordance with GAAP, and it should not be construed to imply that the Company's future results will be unaffected by unusual or non-recurring items. In addition, the measure is not intended to be a measure of free cash flow for management's discretionary use, as it does not reflect certain cash requirements such as debt service requirements, capital expenditures and other cash costs that may recur in the future. Adjusted EBITDA contains certain other limitations, including the failure to reflect our cash expenditures, cash requirements for working capital needs and other potential cash requirements. In evaluating these non-GAAP measures, you should be aware that in the future the Company may incur expenses that are the same or similar to some of the adjustments in this presentation. The Company's presentation of non-GAAP diluted earnings (loss) per share or Adjusted EBITDA should not be construed to imply that its future results will be unaffected by any such adjustments. Management compensates for these limitations by primarily relying on the Company's GAAP results in addition to using these adjusted measures on a supplemental basis. The Company's definition of these measures is not necessarily comparable to other similarly titled captions of other companies due to different methods of calculation. The schedules below contain reconciliations of reported GAAP diluted earnings (loss) per share to non-GAAP diluted earnings (loss) and net loss to non-GAAP Adjusted EBITDA.

OrthoPediatrics was founded on the **cause** of impacting the lives of children with orthopedic conditions

234,000+

pediatric patients treated since inception

- 01 Children's **unique clinical conditions**
- 02 Existing solutions are **re-purposed from adult implants**

FIREFLY® Pedicle Screw Navigation Guides

FireFly S2/Alar

Unique patient specific 3D printed bone models and drill guides, can be used with any Spinal Deformity Correction system.

- 99.7% screw placement accuracy
- Preoperative concierge surgical planning drives intraoperative efficiency
- Minimal intraoperative radiation
- Simplifies S2AI approach

7D Surgical Intraoperative Navigation

- **Eliminates Radiation** exposure to staff & patients
- **Cuts Registration** from 30 min to < 30 sec
- **Improves Accuracy** to improve surgical outcomes
- **Reduces Costs** & improve hospital economic value

Chris Comstock, MD & Eric Wait, MD
Driscoll Children's Hospital
First Pediatric Deformity Installation in US

“ I have noticed we are seeing **shorter stays** for our patients with complex spinal surgeries since we have started using the 7D technology. **It used to be children would stay 3-5 days at Driscoll following surgery. Now what we are seeing is most of them are going home after 3 days.** And that is better for kids and their families

What we are seeing with this technology is surgeries which might have **taken up to 5-6 hours are often being reduced to 3.5 hours** ”

Dr. Eric Wait
Driscoll Children's Hospital

“As a surgeon educator, I have always appreciated and valued OrthoPediatrix’s commitment to education.

Ryan Goodwin, MD, MBA, FAOA
The Cleveland Clinic”

- 01 **OP Hands-on sales training and support**
 - Annually invests 3% of sales on clinical education
 - Conducts >700 product/training sessions per year
- 02 **Market development**
 - Fosters early relationships with young surgeons and fellows to drive sustainable growth
- 03 **Continuous education**
 - Major Sponsor of the prominent pediatric orthopedic societies

T&D

- Expanding intramedullary nailing portfolio
- Solutions for rare bone disease
- Expansion of external fixation portfolio

Scoliosis

- Advancing non-fusion treatment
- Early-onset scoliosis innovations
- Innovation in highly-complex fusion
 - Manual growing, rib based, etc.

Enabling Technologies

- Orthex surgical software
- Firefly patient-specific planning/guides
- 7D spinal interoperative navigation
- PediPortal app
